DESCRIPTORS: *Kidneys, *Hypertension, Pathology, *Blood pressure, Nervous system, Kallikrein, "Renin.

Data are analyzed showing that the renal pressor factor has an important effect on the level of the blood pressure and that ischemia plays a part in the formation of renin by the kidneys. The renal pressor factor is important in the genesis of nephrogenic hypertension. Changes in the nervous system in experimental rena hypertension are a vital factor in the development of a
